Dear Ms. Henney:

I, along with many others, are concerned about genetic engineering of our food supply. I feel ~~that it's~~ absolutely wrong to barge ahead with something about which so little is known.

In addition, those of us who wish to avoid genetically engineered foods cannot do so because they are not identified.

Please pass the word along that there are many people who have the same feelings as I and that we want our voices to be heard.

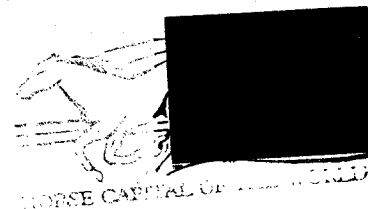

Sincerely,

*Winona Ramsay*
